Dear Paul,

The Maine Forest Service received your NRPA Permit by Rule application on May 26, 2016 for the construction of a permanent water crossing across the southwest branch of the Indian River on property belonging to Harry Stevens in Addison, Maine. The Permit by Rule (PBR) form has been reviewed by the Maine Forest Service and was found to be complete.

The review of PBR 16012 by the Maine Forest Service with your modification dated May 31, 2016 to remove the request for the ability to reclaim the gravel from the washed out original crossing in the old stream bed finds that your project as outlined in the amended application will meet the requirements for the Permit by Rule, Chapter 305, Section 10 for the planned construction of the permanent crossing. You may proceed with the project as it has been described in the application PBR 16012.

Please refer to the Permit by Rule standards for guidance to insure that the project meets or exceeds standards:

Please contact me if you have any questions.

Sincerely,

James Ecker
